

# IDRIS MUTOLIB

## Frontend Developer

idrismutolib5@gmail.com | +234-9163297925 | GitHub: [github.com/drspine1](https://github.com/drspine1) | Portfolio: [taleeb-portfolio.vercel.app](https://taleeb-portfolio.vercel.app)

### Professional Summary

Frontend Developer with 3+ years of hands-on experience building and shipping real-world web applications using React, Next.js, and Tailwind CSS. Strong focus on clean component architecture, performance optimization, accessibility, and real-world features such as payments, dashboards, and dynamic data flows.

### Core Skills

**Languages & Technologies:** JavaScript (ES6+), TypeScript, CSS3, Tailwind CSS, MongoDB

**Frameworks & Libraries:** React, Next.js, Redux Toolkit, Zustand, Framer Motion

**Frontend Strengths:** Component-driven architecture, API integration, responsive design, accessibility (a11y), performance optimization

**Tools & Platforms:** Git & GitHub, VS Code, Chrome DevTools, Netlify, Vercel

### Professional Experience

#### Frontend Developer (Freelance) - Remote | Aug 2024 - Present

- Architected and built a full-featured Luxury Hotel Booking Platform using React, Next.js, Tailwind CSS, and Stripe.
- Designed reusable UI components and managed global state for bookings, pricing, and availability.
- Integrated secure payment workflows with Stripe, handling edge cases and error states.
- Improved user engagement by ~40% through responsive layouts, motion design, and optimized UX flows.
- Reduced checkout friction and increased conversion rates by ~20% through performance and UI optimizations.

#### Programmer / Math Teacher - New-Era Learning School | Aug 2023 - Feb 2024

- Taught programming fundamentals using Scratch, breaking down complex logic into simple, visual concepts.
- Mentored students in problem-solving, analytical thinking, and structured reasoning.
- Strengthened communication and leadership skills by explaining technical ideas to non-technical audiences.

#### Junior Frontend Developer (Volunteer / Contract) - Local Tech Startup | Jan 2023 - Jul 2023

- Contributed to a production internal dashboard used by 1,000+ users for daily operations.
- Translated Figma designs into scalable, responsive React components using Next.js and Tailwind CSS.
- Collaborated with senior developers in code reviews, learning best practices in component structure and state management.
- Implemented accessibility improvements improving usability by ~30%.

#### Frontend Developer (Freelance / Self-Directed Projects) - Remote | Jan 2021 - Dec 2022

- Built and deployed multiple responsive web applications using React, JavaScript, and modern CSS.
- Worked on personal and client-style projects including landing pages, dashboards, and CRUD applications.
- Integrated REST APIs, handled form validation, and implemented client-side state management.
- Gained strong foundations in component architecture, Git workflows, and debugging in production-like environments.

### Selected Frontend Projects

#### Luxury Hotel Booking Platform

- Full booking system with dynamic room listings, pricing logic, and Stripe payment integration.
- Built with React, Next.js, Tailwind CSS, Framer Motion, and Stripe.
- Live demo: [taleeb-portfolio.vercel.app](https://taleeb-portfolio.vercel.app)

### Education

Self-Taught Frontend Developer - 4 years of consistent learning through real-world projects and continuous self-study.  
Ordinary National Diploma (OND) - Science Laboratory & Technology (SLT), Federal Polytechnic Bida

### Interests

Web accessibility, UI/UX patterns, frontend performance, chess, novels, science fiction.
